Dear Vladimir,

It was good to hear your strong voice today and always in defense of the rights of the Serbian people and justice.

Please add my name to the petition to the ICTY to stop all violations of Dr. Seselj's human rights.

You may also use the following statement from me in support of Dr. Seselj:

"The International Criminal Tribunal for former Yugoslavia must act immediately to fully protect and defend the right of Dr. Seselj "to defend himself in person" as he has chosen to do. This right is guaranteed by Art. (4)(3)(d) of the International Covenant on Civil and Political Rights and Art. 21 of the statute governing the ICTY itself.

"The ICTY must also act diligently to assure Dr. Seselj's health after nearly six years imprisonment at La Hague. The Tribunal must remember its ^{own} tragic ^{errors} mistakes in the struggle of President Milosevic to defend himself before it and its failures to authorize measures to protect his life to avoid condemnation for repeating those mistakes." Ramsey Clark

THANKS VLADIMIR
